

Stories of hope

Feedback from Misa Hiorescu, June 2020 Ursoaia, Moldova

Peace, dear brothers.

We thank you from the bottom of the heart for helping us to complete this project*.

After this project we bought some food products that we gave to ten families who have a lot of children and physical disabled people. They were happy to receive these food parcels during this difficult period...

Unfortunately, we weren't able to take photos of everyone of them, just of a few families. When we went to visit a family, they invited us in their home and we talked for long time to them. They told us about their hardships and I was happy to tell them about God's love.

Another family we visited has three young children and they wanted us to show them the things we brought to them.

From the bottom of the heart, we thank you for everything you do for this village by enabling us to bring the gospel to these families who also need food for their bodies and for their souls.

* This was funded by an emergency relief grant from TEN to buy food parcels.
